Subject: Re: Behr Dayton Site (La Mirada) - EPA 104(e) Request

Maria,

I am writing with regard to La Mirada Products Co., Inc.'s response to EPA's 104(e) request related to the Behr Dayton Thermal Products VOC Plume Site. While we are progressing with our response to the 104(e) request, we are still waiting to confirm whether additional client documentation may exist in one or more off-site locations that may be responsive to EPA's request. Given the potential for additional documentation that must be reviewed and/or incorporated into La Mirada's response (and because of significant work-related travel that relevant Taft attorneys have during the last week of September and first week of October), we are requesting a final three week extension of La Mirada's response deadline up to and including October 16 (we are agreeable with making Oct. 16 the "final" deadline not subject to additional extensions).

Please contact me if EPA has any objections to this final extension request. If you have any questions or would like to discuss further, please contact me at your convenience. Thanks.

Fernando
